

N. Y. NEGRO STUDENT PICKED BY ANSORGE FOR NAVY ACADEMY

Names E. T. Holley, From
City College, Among 4 Prin-
cipals and 12 Alternates.

CANDIDATE IS PRAISED.

Representative Says Youth
Has Shown His Merit in
Various Ways at School.

WASHINGTON, March 24.—Emile
Treville Holley, seventeen-year-old
Negro boy, whose home is at No. 102
West 158th Street, New York, has
been nominated by Representative
Martin C. Anson, Republican, of
the 21st Congressional District for
admission to Annapolis. If he should
pass the examination at the Naval
Academy April 19 and finish the
course there, he will be the first of
his race to do so since the reconstruc-
tion period after the Civil War.

Holley is a freshman at the College
of the City of New York. While a
student at the Townsend Harris High
School, Mr. Anson said, he was on
the varsity track and baseball squads
and an officer of his class. He is also
Superintendent of the St. James's
Presbyterian Sunday school and a
member of the Boys' Executive Council
of the Y. M. C. A.

Representative Anson stated that
there were four vacancies for which
he named four principals and twelve
alternates.

Others named as principals are
Thomas H. Reed of No. 575 West
151st Street, members of whose fam-
ily have for three generations been
naval officers; Vincent Henry of No.
850 Audubon Avenue, and Arthur J.
O'Reilly of No. 454 West 144th Street.
Mr. Anson said recognition
should be given to Negro citizens in
these appointments.

Emile Treville Holley said he had
received no official word of his eligi-
bility to take the examination for the
service school when told of his nomi-
nation. He was jubilant over his se-
lection and said he intended to take
the examinations.

Holley is an honor graduate of Pub-
lic School No. 59. He lives with his
father and mother, Mr. and Mrs.
William A. Holley.

BLAMES PEOPLE FOR SCHOOL CONDITIONS

Dr. Ettinger Puts Part Time Up to
the Public.

The people are responsible for con-
ditions in New York public schools, Dr.
William L. Ettinger, Superintendent of
Schools, told members of the Brooklyn
Real Estate Board.

He said part time instruction has
grown steadily since 1902. The results
of widespread indifference, he asserted,
were only physically apparent now, but
in the next generation parents will
realize keenly the effects of noninter-
est. He said there were 29,000 pupils
on part time in 1902 and 114,000 now.

He added:
"Such a condition is enough to wreck
any school system. The present city
administration is not responsible for
this condition, nor is the one preceding
it, or any other former administration.
I may tell you, citizens, that you are
responsible for it."
Truancy, discouragement of the
child and other detrimental influences,
he said, could frequently be traced to
part time and double session attend-
ance.

FIFTH AVENUE

New Colors in New Hats

\$8.75 \$10 \$16.50

That glorious golden yellow, some call it dent de lion, others simply jon-
quil—but all agree that it fairly glows with the spirit of youth and spring-
time. It's a great favorite for the newest hats—and so is the true Chinese
red—and Nattier blue—and spring green! It's a decidedly colorful season,
you see. But black, the ever quietly correct, proves again how smart a
hat can be when it relies on dashing lines alone.

Tweed Suit Hats

In case you've bought a tweed suit
this season you'll surely be inter-
ested in the hats of tweed-cloth,
tweed straw or tweed felt—suit hats
with a French or English accent.

Children's New Hats

Styles, materials and trimmings of
the newest. Colors appropriate for
children. Simple tailored styles
and others for more festive occa-
sions. Prices are most moderate.

FOURTH FLOOR

The Strap's the Thing in

Women's Spring Pumps, \$8.75

As the season progresses we are becoming more firmly convinced than ever
that nothing is quite so smart for certain occasions—and how many
they are—as the strap pump. You will be glad to know that you can
find a number of leather combinations, 15 styles in all, at \$8.75

There are combinations of tan and fawn, patent leather and grey,
several styles in all patent leather or all black calfskin, ecru buckskin, also
several styles with high or baby French heels.

SECOND FLOOR

THE BOYS' SECTION

Norfolk Suits, \$12.50

With Extra Knickers

All-wool suits, tailored according to the standards
that we insist upon in all our boys' clothing. They
are reinforced and strongly sewn at points where boys
give them the hardest wear. Grey and brown mixtures.
7 to 18 years. Some have extra golf knickers.

FOURTH FLOOR

For Junior Girls

New Spring Tweed Suits, \$19.50

Girls must have their smart tweed suits too,
particularly when they are at that indeter-
minate age just beyond childhood but not
yet fully grown up.

Any one of these young ladies will surely
be charmed with the tweed suits sketched
at the right, for they are made very much
like mother's, one with a loose box coat,
buttoning at the neck with a single button,
and a Peter Pan collar. The other a more
tailored style, belted. They are shown in
lovely shades of tan, orchid, rose and blue.
All lined with peau de cygne. 10 to 16 years.

FOURTH FLOOR

Growing Girls' Saddle Oxfords, \$6.90

It is a very smart style as you may see at the left.
Made of smoked elk with brown saddle and wing
tip—it is exactly the thing to wear with one of the
new tweed suits sketched above. Sizes 2½ to 7.

Patent Leather Strap Pumps, \$7—Another
special value for growing girls. These pumps have
broad or medium toes, medium heels and one grace-
ful strap. They are the thing for Sunday best or
dancing school. Sizes 2½ to 7.

Tweed Suits for Women

We simply can't keep these tweed suits
in the store! Every woman who sees
them says, "Oh, how spring-like! What
pleasant colors!" She runs her hand
over them next, and says, "What nice
soft materials!" turns back the lining and
says, "And what good tailoring. How
can Lord & Taylor sell them for \$25?
—yes, I would like attention, please."
And there's another one of them gone.
You'd better put it down on your shop-
ping list this very minute to come in
early while all the colors and sizes are
here. In Nippon and horizon blue, rose,
tan and wisteria.

Suitable for Tweeds
